

Wellness Testimonials

"We have experienced the Wellness Filter in our restaurant for only a month and I must tell you the results are incredible. The Wellness Filter has improved the quality of our sauces, soups and vegetables, and we are now offering our customers Wellness Water instead of bottled water. We are very happy with our decision to install your filter at San Domenico."
Tony May (Restaurateur of the Year 2000), San Domenico Restaurant, NYC

"We have seen an improvement in patient blood count and blood vibrancy since switching the institute over to Wellness Water. We think that anyone who is fighting a health condition or who wants to provide the maximum preventative healthcare should own one of these amazing systems."
Hippocrates Health Institute (Number 1 rated medical spa in the world)

"One of the most important things we can do for optimum health is to drink an abundance of pure, clean water every day. The Wellness Filter enhances water in a way not previously seen outside of Japan. Anyone serious about their family's health should own one of these amazing filters."
Leonard Smith, MD (Nationally known lecturer & practitioner)

"My patients continue to be amazed by the Wellness Filter water. As far as I am concerned, there is nothing comparable anywhere that I have tested."
Dr. Donald Barturm, Private physician & researcher

"We have found that the Wellness Filter takes water to a new level in purity and performance. Taking nutritional products with Wellness Filter water gives the consumer the ultimate health benefit."
Jeff Lioon, President Douglas Laboratories

"We have seen virtually everything ever offered in way of water purification. The Wellness Filter is in a class by itself and offers qualities and benefits that are outside the reach of conventional water filters. We believe that the Wellness Filter product line will change the way people look at water in the future."
John Douglas, President Paragon Water Systems

Wellness Testimonials (continued)

"The Wellness Filter is the most amazing water purification system I have ever seen. I am taking mine with me to my newest development and can't imagine a quality home without one in it."

Craig Perna, Developer of Addison Reserve and Mirasol Golf Communities

"The Wellness Filter has shown us that all water is not the same. We have seen significant increases in the growth and health of plants irrigated in Wellness Filter water. The plants are also showing an amazing resistance to fungus - something that is beyond our current understanding."

University of Idaho

"We have been very impressed with the improved quality, taste and feel of our clubhouse water since installing a large Wellness Filter several months ago. Club members have also commented about the improved taste of their drinks because of the water/ice. I have one for my new home, showing noticeable benefit in hair and skin care but household plants are thriving as well. We are now looking at numerous applications for using Wellness Filter water on our golf course."

Jeff Reynolds, Owner/Developer Indian River Club, Vero Beach, FL

"Wow! The Wellness Filter has been a tremendous benefit to Jack's and you have my permission to use this letter as an unequivocal endorsement of this product to the restaurant industry... The improvement to our water quality has been dramatic. I didn't realize anything was wrong until I tasted Wellness Water... Dishes, pots, pans, glassware and silverware don't spot. While our customer's don't notice clean silverware, plates or glasses they sure have noticed spotty ones. The Wellness Filter has all but eliminated that problem. To conclude, our chef, Dale Miller, is one of fifty-five Certified Master Chefs in the U.S. He feels so strongly about the Wellness Filter that he will be recommending it to the Culinary Institute, his alma mater. I too will be recommending the Wellness Filter to the New York State Restaurant Association, where I am a board member.

Brad Rosenstein, President Jack's Oyster House, Albany, N.Y.
