

Wellness Carafe

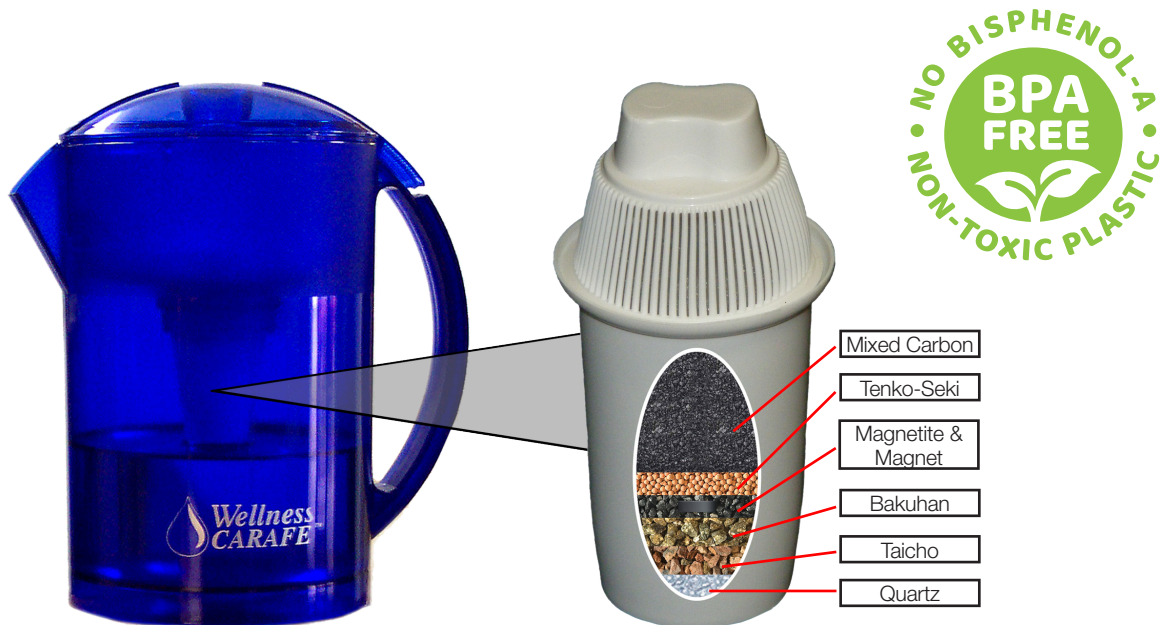

The Wellness Carafe gives you clean, refreshing water in a portable pitcher design. Uses a multi-stage filter cartridge to reduce Chlorine, Lead, and other harmful contaminants from your water through gravity filtration. After water is filtered it passes through Wellness' enhancement media which adds trace alkaline minerals to the water for a unique taste that can only be found with the Wellness Carafe.

- ◆ Improves taste and quality of water
- ◆ Reduces Chlorine, Lead, and THMs
- ◆ Enhances water with Wellness Technology

System Details

The Wellness Carafe has a 2.2 liter reservoir which allows it to hold significantly more filtered water than your standard pitcher device. Cartridges are tested to reduce Chlorine and Lead for 40 Gallons (150 liters) which on average is 3 months of use.

After filtration, water passes over Wellness' enhancement media. The first enhancement stage is magnetic treatment which includes Tenko-Seki, Magnetite, and Magnet medias. The second stage is Bakuhan and Taicho stones which add low levels of Calcium, Potassium, Silica, Yttrium, Vanadium, and other minerals to the water, giving it a unique flavor. Finally water passes over quartz crystal.

Wellness Carafe Specifications

Filtration Media	Mixed Granular Carbon & Resin
Enhancement Media	Tenko-Seki, Magnetite, Magnet, Bakuhan, Taicho, Quartz
Rated Cartridge Life	40 Gallons or 3 Months
Operating Temp	40° – 85° F (4.4° – 29.4° C)
System Dimensions	10" Height x 6" Diameter and 2 Lbs
Cartridge Dimensions	4.75" Height x 2.25" Diameter and 3.5 oz
Product Warranty	30 Days Mechanical
